PROFESSIONAL SUMMARY

I am a highly skilled Data Science & AI Engineer and a strong focus on leveraging artificial intelligence and machine learning to solve complex problems and drive innovation. I am proficient in Python, data Science and AI frameworks. Passionate about using data science and AI to create intelligent, scalable, and user-centric solutions that maximize efficiency and performance.

Frontend heavy full stack engineer with 5+ years of experience in developing and designing user-friendly interfaces for web applications, with a strong focus on creating seamless user experiences. I have a deep understanding of web fundamentals such as HTML, CSS, JavaScript, Python, HTTP and am skilled in using various frontend frameworks such as Bootstrap, React JS. Passionate about learning and development with a desire to apply skills and eager to tackle more complex problems and continue to find ways to maximize user efficiency.

EDUCATION

University of Bridgeport
Master of Science in Computer Science (Expected 2025)

Sphoorthy Engineering College
Bachelor of Technology (2015)

WORK EXPERIENCE

Creative Tech Mars Software Solutions Private Limited

Senior Software Engineer (Jun 2022 - Jul 2023)

- Collaborated on the development of the Catalogue Module for DAZN's sports streaming platform.
- Implemented A/B testing strategies using Optimizely to enhance user engagement and conversion rates
- Collaborated closely with cross-functional teams, including designers and backend engineers, to deliver seamless user experiences.

- Participated in code reviews, ensuring code quality, adherence to coding standards, and best practices.

Senior Frontend Developer (Mar 2020 – May 2022)

- Involved in the development of University Management System and Learning Management System (ULMS).
- Optimized these applications' performance by implementing best practices for image compression, caching, and minification, resulting in increased page speed
- Improved these applications accessibility by implementing best practices for color contrast, keyboard navigation, and screen reader compatibility for Learning Management System.
- Managed a team of 2 remote full-time employees

Frontend Developer (May 2017 – Feb 2020)

- Successfully developed and launched several client's websites which are responsive across all devices and truly accessible.
- Dealt directly with different clients to understand their needs and provide solutions that met their expectations.
- Developed and designed the complete frontend of a business management system. Leveraged expertise in HTML, CSS, and JavaScript, as well as experience with frontend frameworks such as React, to create a user- friendly interface with responsive design.
- Optimized website performance by implementing the best practices for image compression, caching and minification, resulting in increased page speed.

TECHNICAL SKILLS

Technologies

Frontend Development

- **Languages & Technologies:** HTML5, CSS3, JavaScript, TypeScript,

  React.js (Framework), Bootstrap (Framework)

Backend & Programming Languages

- **Technologies & Languages:** Python, .NET (Framework)

Data Science & Artificial Intelligence (AI)

- **Core Domains:** Machine Learning (ML), Deep Learning (DL), Natural Language Processing (NLP), Reinforcement Learning

Databases

- **SQL (Oracle)**

Software & Tools

Version Control & Collaboration: Git**,** GitHub**,** Jira

Development & Design: VS Code, PyCharm

Cloud & DevOps (Beginner)

Cloud Platforms: AWS

CI/CD & Automation: GitHub Actions

CERTIFICATIONS & TRAINING

- AWS Academy Graduate - AWS Academy Cloud Developing.
- Creative Multimedia Academy - Awarded for creating an innovative and user-friendly webpage that showcased creativity and technical skills in web development.

PROJECTS

Website Development:

- Developed and launched a fully functional university website, enabling students to access academic information, course schedules, and campus news.
- Designed and implemented an intuitive user interface (UI) to enhance the user experience for students, faculty, and staff.

Online Tax Filing Platform Development:

- Developed an online platform for Chartered Accountants that transitioned traditional offline tax filing processes to a streamlined, user-friendly web application.
- Enabled users to securely file taxes online, reducing the time and complexity of traditional tax filing methods.

Cricket Website Development:

- Designed and developed a fully responsive cricket website providing users with the latest scores, player status, team rankings, and match schedules.
- I implemented an interactive user interface (UI) using HTML, CSS, JavaScript, jQuery to enhance the user experience.
